LICENSE STATEMENT

This software is protected by both United States copyright law and international treaty provisions. Therefore, you must treat this software just like a book, with the following single exception. GMRI authorizes you to make archival copies of the software for the sole purpose of backing-up software and protecting your investment from loss.

By saying, "just like a book", GMRI means, for example, that this software may be used by any number of people and may be freely moved from one computer location to another, so long as there is no possibility of it being used at one location while it is being used at another. Just like a book that can't be read by two different people in two different places at the same time, neither can the software be used by two different people in two different places at the same time.

You may not:

- Make the software available to any person or entity other than yourself or your employees, who must use the software as specified above.

WARRANTIES

The Software is provided as-is. GMRI makes no warranties whatsoever with respect to the Software, services, or this Agreement, and GMRI hereby disclaims any and all warranties, conditions, representations (whether express or implied, oral or written), including without limitation any implied warranties of title, non-infringement, information, merchantability or fitness for any particular purpose (whether or not GMRI knows or has reason to know of such purpose), whether arising by law, custom, usage in the trade or by course of dealing.
